

SafeMountain — Privacy Policy

Privacy Policy — SafeMountain

Last updated: 2025-08-26

This Privacy Policy explains how SafeMountain (the “App”) handles your personal data when you create an account, browse the App, upload APK files for analysis, and use the privacy-risk evaluation features. SafeMountain is designed to analyze mobile apps and flag privacy and cyberbullying risks, providing recommendations in a traffic-light format (green/amber/red).

Short version (shown in-app): there we provide a simplified, accessible overview. This document is the full, legally binding version.

1. Data Controller

- Product: SafeMountain (privacy analysis mobile app)
 - Controller: [RESPONSIBLE ENTITY/OWNER]
 - Contact: [CONTACT EMAIL], [POSTAL ADDRESS]
 - Data Protection Officer (if applicable): [DPO EMAIL]
- (Fill the brackets with your actual details before publishing.)

2. Data we process

- Account data: name (optional), email, password (bcrypt hash), language.
- Usage & device data: system language, timezone, internal (non-advertising) identifiers, minimal technical logs (errors, performance, network state).
- Installed apps (Android): package name, version, declared permissions. To provide a comprehensive risk analysis the App may request QUERY_ALL_PACKAGES. We ask for consent and you can disable scanning anytime.
- Uploaded files: APKs you upload for analysis (static/automated). We generate reports (permissions, endpoints, known SDKs/trackers, risk score).
- Results & scores: risk metrics, categories and recommendations (traffic-light).
- Communications: email verification, password reset, and support.

We do not use advertising identifiers for cross-app tracking. We do not conduct commercial profiling.

3. Purposes and legal bases (GDPR)

- Create/manage your account, authentication and security — Contract (art. 6.1.b)
- Analyze APKs and installed apps to provide evaluations and advice — Contract (art. 6.1.b)
- Improve stability, performance and security (minimal logs) — Legitimate interest (art. 6.1.f)
- Send transactional communications (verification, reset) — Contract (art. 6.1.b)
- Comply with legal obligations — Legal obligation (art. 6.1.c)
- Optional notifications — Consent (art. 6.1.a; revocable in Settings)

4. Where data comes from

- You provide it (sign-up, settings, file uploads).
- From your device when you agree to scan installed apps.
- From automated analyses performed to generate risk reports.

5. Automated decisions & profiling

We compute risk scores across multiple dimensions (sensitive permissions, non-TLS endpoints, SDK presence). These evaluations do not by themselves produce legal effects. You can inspect details and request human review.

SafeMountain — Privacy Policy

6. Sharing, processors & transfers

- Processors: infrastructure, transactional email, storage and security (DPAs per art. 28 GDPR).
 - We do not sell your data.
 - International transfers (if any): with appropriate safeguards (Standard Contractual Clauses).
- Vendor list available upon request.

7. Retention

- Account: while active. Deletion upon request or after prolonged inactivity.
 - APKs & reports: by default [X days/months]; you can delete them anytime.
 - Technical logs: [X days], unless security incidents require longer retention.
- After those periods, data will be securely deleted or anonymized.

8. Security

TLS in transit, passwords hashed with bcrypt, access controls, data segregation, backups, vulnerability reviews and access logging. No method is 100% secure; use strong passwords and keep your device up-to-date.

9. Children

The App is not directed to children under [13/14/16] (choose per market). If we learn a child below the threshold registered, we will delete the account and associated data.

10. Your rights

Access, rectification, erasure, objection, restriction, portability, and the right not to be subject to automated decisions. You may withdraw consent and lodge a complaint with your supervisory authority.

How to exercise: via Settings > Privacy or by emailing [CONTACT/DPO EMAIL] with reasonable proof of identity. Response time: 1 month (extendable for complex cases).

11. App permissions & capabilities

- QUERY_ALL_PACKAGES (Android): used for privacy auditing of installed apps (we explain it beforehand and you can revoke).
- Storage/files: to upload APKs and download reports.
- Notifications (optional): relevant alerts (e.g., results ready).

We do not access photos, messages or contacts unless a specific feature requires it and you have authorized it.

12. Cookies & similar tech

The App does not use cookies. Our website may use technical/analytics cookies with its own notice and preference panel.

13. Changes to this Policy

We will notify in-app and update the date above. If changes are material, we will request consent where applicable.

14. Contact

Email: [CONTACT EMAIL] — Address: [POSTAL ADDRESS] — DPO (if applicable): [DPO EMAIL]

SafeMountain — Privacy Policy

- 1) Sign-up/Login: account + security logs. Basis: contract. Retention: active account + 6 months logs.
- 2) Installed apps scan: package/permissions/version. Basis: contract + consent. Retention: until revoked or inactive.
- 3) Uploaded APK analysis: APK + report. Basis: contract. Retention: [X].
- 4) Service improvement/security: anonymous metrics/minimal logs. Basis: legitimate interest.
